

City Light Key Accounts As of December 4, 2017

Key Customers are customers with large and high demand meters. These include (but are not limited to) the large maritime/industrial customers, hospitals, universities, stadiums/arenas, commercial buildings, data centers, significant property management firms and developers

Critical Care customers are customers that are determined to provide critical life/safety, and/or have community and/or public significance. These include (but are not limited to) City departments (i.e. library, police, fire, SPU) public school districts, managed care, housing authorities, and governmental, suburban and transit agencies (Port, King County, Sound Transit, franchise cities). These customers generally do not have large/high demand meters.

Both Key and Critical Care customers are covered under the umbrella term "Major". There are currently approximately 300 major customers representing several thousand accounts.
