City of Seattle
Seattle Fire Department

Customers Pursuing Seattle Certification for Fire and Life Safety System

The Seattle Fire Department (SFD) welcomes you to the Certification Section of the Fire Prevention Division. This informational packet is written to help you in obtaining certification to perform work on fire protection and/or life safety systems in the city of Seattle. For those interested in securing first time certification or prior holders of a SFD Certificate, this booklet will help you through the process.

The Seattle Fire Department certifies individuals who install, inspect, test or maintain fire protection and life safety systems per the Seattle Fire Code, Chapter 9, Section 901.4.7. Adherence to rules and guidelines associated with the Seattle Fire Code and published industry standards is a condition of certification. Your certificate will allow you to perform specific duties that will be listed on your SFD-issued certification card. Please note that Seattle certification is not a substitute for state certification, which may also be required.

Starting with the Table of Contents, this certification packet provides pertinent information including telephone numbers, definitions for each of the certifications, a bibliography listing materials from which the test questions are derived, criteria for the exams, fees, and limitations.

We look forward to working in partnership with you to promote the safety of those who live, work, and visit the city of Seattle.

If you have any questions or need assistance regarding our certification program, please contact the Certification Unit at (206) 386-1351.

Assistant Chief Timothy J. Munnis
Fire Marshal
Seattle Fire Department

GENERAL CERTIFICATION INFORMATION

This document provides our customers with information on how to obtain a certificate from the Seattle Fire Department to install, inspect, test and maintain fire protection and life safety systems in the city of Seattle.

Types of Certification Available

The following categories of certifications are presently available from the Seattle Fire Department.

Type AS-ITT(S)	Inspection, testing, and maintenance of water-based fire protection systems, State Level ITT (Inspection and Testing Technician Certification).
Type AS-2(S)	Installation, inspection, testing, and maintenance of automatic sprinkler systems, State Level 2 (Residential-Level Sprinkler Fitters in Group R residential buildings up to and including four stories).
Type AS-3(S)	Installation, inspection, testing, and maintenance of automatic sprinkler systems, State Level 3 (Journey-Level Sprinkler Fitters in all buildings).
Type E-1	Installation, inspection, testing, and maintenance of foam fire extinguishing systems; must also maintain AS-3(S) certification.
Type E-2	Installation, inspection, testing, and maintenance of carbon dioxide fire extinguishing systems.
Type E-3	Installation, inspection, testing, and maintenance of engineered, clean agent, or halon replacement fire extinguishing systems.
Type E-4	Installation, inspection, testing, and maintenance of engineered wet/dry chemical fire extinguishing systems.
Type EG-1	Installation (non-electrical), inspection, testing, and maintenance of emergency generators.
Type EG-ITM	Inspection, testing, and maintenance of emergency generators.
Type FA-1	Installation, programming, inspection, testing, and maintenance of automatic fire alarm systems in any building.
Type FA-ITM	Inspection, testing (except "acceptance testing"), and maintenance of automatic fire alarm systems.
Type FP-1	Installation (non-electrical), inspection, testing, and maintenance of fire pumps and controllers.
Type FP-ITM	Inspection, testing, and maintenance of fire pumps and controllers.
Type FEX-1	All activities relating to portable fire extinguishers including those listed in Types FEX-2, FEX-3, and FEX-4.
Type FEX-2	Installation, inspection, testing, maintenance, charging, and recharging of portable fire extinguishers.

Type FEX-3	Hydrostatic testing of fire extinguisher cylinders.
Type FEX-4	Annual external examination of CO ₂ or stored pressure fire extinguishers equipped with pressure indicators or gauges.
Type SC-1	Installation, inspection, testing, and maintenance of smoke control systems.
Type SC-ITM	Inspection, testing, and maintenance of smoke control systems.
Type STP-ITM	Inspection, testing, and maintenance of standpipe systems (<i>installation of standpipes requires a sprinkler certification, which also covers inspection, testing and maintenance of standpipes</i>).

Applications

To download an application for testing, certification annual renewal, or a replacement card, visit the Certification webpage at <http://www.seattle.gov/fire/business-services/certification-testing>. Applications are also available to candidates on the scheduled test day.

Contact Us

If you have questions or need more information, please contact us:

Fire Prevention Division Certification Unit
Telephone: (206) 386-1444 or (206) 386-1351

The Seattle Fire Prevention Division is located near Pioneer Square at 220 3rd Avenue South on the second floor.

Scheduling

To make an appointment, email SFD_FMO_Certification@seattle.gov or call the Certification Unit at (206) 386-1444/386-1351. If you receive the recorded message, please follow the instructions. If you wish to receive a confirmation call, please request it in your message. **You may schedule up to two exams per test date.** All Exams are **Closed book**, Re-tests will not be administered on the same day as the original test; a separate appointment must be made. The test site is located at the Fire Prevention Division at 220 3rd Ave. S. on the second floor.

Certification Fees and Payment

Seattle Fire Department Certification Fees	
Testing	\$444 per examination, required once every three years
Renewal	No charge, however certificates must be renewed annually
Replacement Card	\$60 per card

Examinations - \$444 per Exam

The cost for each exam is \$444 and may be paid by check (payable to the *City of Seattle*) or online at: <https://web7.seattle.gov/sfd/permits/>. The fee is due at or before the time of the exam and applicants who have not paid will not be allowed to take the exam. If the fee is paid in advance, proof of payment must be brought with the applicant to the test. Advance payment must be associated to a specific testing customer and must be used within 60 days. The fee covers the initial test and if needed, one re-test. The re-test must be taken within 90 days of the original test date. If the re-test is taken after the 90-day period, a new certification exam fee of \$444 will be required.

Once the candidate has successfully passing a certification examination and provided evidence of a current state of Washington certification (if required by state law for that certification type), the individual will be certified by the city of Seattle for one year. The certification may be renewed for two subsequent years at no cost to the card holder. Testing and payment are required every three years.

Annual Renewals - No Charge

Certificates will expire one year from the date of test. Card holders may renew their certification for two additional years at no cost by filling out and submitting the Renewal Application for Fire and Life Safety Certification annually. Certificate holders will need to remain familiar with the current fire code and national standards outlined in the SFD Certification Packet at <http://www.seattle.gov/fire/business-services/certification-testing>. It is the responsibility of certificate holders to keep their certificate up to date each year. It is a criminal law violation to perform any of the work regulated by Seattle Fire Department Administrative Rule 9.01 without a valid certificate.

Replacement Cards - \$60 per Card

A \$60 fee will be assessed for each lost or stolen certification card that is replaced. The fee can be paid by check (payable to the *City of Seattle*) or, if you wish to use a credit card for a replacement card, please call us at (206) 386-1450 or make payment in person in our office. Due to information that needs to be validated for issuing replacement cards, we are unable to accept online payments for this service.

Testing Dates and Times Certification tests are administered as follows:

Every Monday and Wednesday, 2:00 p.m.

Every Tuesday, 7:30 a.m.

Tests are not administered on City holidays. Test takers have two hours to complete the test.

Testing Location

Tests are administered at the Seattle Fire Prevention Division, 220 Third Avenue South, in Seattle near Pioneer Square. The Fire Prevention Division is on the second floor, above the Foster White Art Gallery.

Identification

Applicants must present picture identification at the test site prior to being issued an exam. Applicants who fail to do so will not be permitted to take the scheduled exam.

State Certification Requirements

Please note that a Seattle certification is not a substitute for any certification the state may require. For example, any employee performing inspection and testing work on water-based fire protection sprinkler systems must also hold a current Washington State Certification of Competency and any employee performing inspection, testing, and maintenance on fire alarm systems must also hold a NICET II certification or the ESA/NTS Certified Fire Alarm Technician Level II certificate.

Pre-reading

Before you acquire study materials and study you should first read Administrative Rule 9.01 of the Seattle Fire Code. Administrative Rule 9.01 of the Seattle Fire Code contains in-depth information on the certification program, including a list of persons and agencies exempted from the program. All Seattle Fire Department Administrative Rules can also be viewed online at <http://www.seattle.gov/fire/business-services/fire-code-and-fire-safety-documents>.

General Reference Materials

The following list provides descriptions of the reference materials from which certification test questions are derived. Information about locating the reference materials is also provided. Specific reference material for each certificate type can be found below in the bibliography section of this packet.

2015 Seattle Fire Code

This is a locally amended version of Washington State's amended version of the 2015 International Fire Code. It is available for viewing online at www.seattle.gov/dpd/codesrules/codes/fire/default.htm (or through links from the Seattle Fire Department web site) and may be purchased at both the Seattle Fire Department and the Seattle Department of Construction and Inspections (SDCI). For hard copies of the Seattle codes, contact [SDCI's Public Resource Center](#). The 2015 Seattle Fire Code may also be purchased over the counter at the Seattle Fire Prevention Division, 220 3rd Avenue South, Floor 2, weekdays from 8 a.m. to 4:30 p.m. The price is \$87. Seattle code books may also be purchased on line from the [International Code Council \(ICC\)](#).

2015 Seattle Building Code

This is a locally amended version of the 2015 International Building Code. It is available for viewing online at www.seattle.gov/dpd/codesrules/codes/building/default.htm and may be purchased from SDCI. For hard copies of the Seattle codes, contact [SDCI's Public Resource Center](#) at (206) 684-8467, 5th Avenue, Floor 20, Seattle.

2017 Seattle Electrical Code

This is a locally amended version of the 2017 National Electrical Code, published by the National Fire Protection Association (www.nfpa.org or 1-800-344-3555). To view the 2017 National Electrical Code and related Seattle amendments online, see <http://www.seattle.gov/dpd/codesrules/codes/electrical/default.htm>. For more information on obtaining paper copies of the local amendments, contact SDCI at (206) 684-8467. Copies of the above codes may also be available from local book retailers.

Seattle Fire Department – Administrative Rulings

SFD Administrative Rulings are available on the web at

<http://www.seattle.gov/fire/business-services/fire-code-and-fire-safety-documents>

Seattle Fire Department – Client Assistance Memoranda (CAMs)

SFD CAMs are available on the web at <http://www.seattle.gov/fire/business-services/fire-code-and-fire-safety-documents> and can also be obtained from the Certification Unit by email or U.S. mail by calling (206) 386-1351.

Seattle Department of Construction and Inspections – Tips

SDCI Tips are available on the web at: <http://web1.seattle.gov/dpd/cams/CamList.aspx> and at the SDCI Public Resource Center, (206) 684-8467, 700 Fifth Avenue, Floor 20, Seattle.

Seattle Department of Construction and Inspections – Director’s Rules

Director’s Rules can be obtained from the Certification Unit by email or U.S. mail by calling (206) 386-1351. Director’s Rules are also available on the web at:

<http://web1.seattle.gov/dpd/dirrulesviewer> and from the Department of Construction and Inspections Public Resource Center, (206) 684-8467, 700 5th Avenue, Floor 20, Seattle.

National Fire Protection Association Standards

NFPA Standards can be viewed online and/or purchased through their website

www.nfpa.org, or by calling the NFPA at 1(800) 344-3555. Copies may also be available from local book retailers.
