Tim Burgess called the meeting to order at 4:05 PM. Introductions were made. The minutes from March 12, 2013 were approved. Holly Miller reviewed the agenda and noted that mid-year report data would be presented at the May LOC meeting.

The West Seattle High School staff members and community-based organization (CBO) partners presented an overview of their Levy-funded strategies, progress towards meeting their performance measures, and course corrections made to date. Each of West Seattle High School's Levy-funded CBOs provided a brief summary of their key roles and responsibilities. Public Health provided an overview of the M-HITS database system used to track student health care service delivery. The presentation then transitioned to a panel discussion in which members of the audience were invited to ask questions about the Levy programming.

T. Burgess thanked the West Seattle High School team for their impressive work implementing a coordinated academic, health, and support services model.

The meeting was adjourned.
