

Building 47 RFP Questions

Submitted April 17, 2019

	Question/Comment	Answer
1.	After the award is announced and the contract is executed, is there the possibility that Parks will allow the new tenant to continue programming in a similar scope to what SMT currently provides while funds are being raised for the needed major renovation?	Proposers are welcome to include in their plan a schedule of what you propose with this. Any operation in the building will need to comply with current building and land use codes. Seattle Parks and Recreation (SPR) is seeking a proposer who make a significant investment in the building to operate all available spaces outlined in the RFP.
